PROFILE

I have experience in mobile app development with React Native, game development using OpenGL, and web development with HTML, CSS, JavaScript, PHP, SQL, and database management systems. Additionally, I am proficient in Python, Java, C#, and C++. I have also worked on projects involving AI and IoT, such as an AI-powered driver drowsiness detection system.

I participated in Teknofest, contributing to the design and development of underwater vehicles, VTOLs, drones, and electric vehicles.

Driven by my passion for technology, I continuously expand my expertise and apply my knowledge to real-world challenges

WORK EXPERIENCE

METAKMAKER3D/ Krakow, Poland   Jully- October 2024
Software Developer (Student Internship)

- Python developer, Developing custom plugins/scripts with Python for generating 3D graphics and processing lines of machine commands. Testing, debugging, and iterating the software.
